		Julian date code and factory code on each na chage surface (master inn	er and each) to enable		

<u>Traceability:</u> Please refer to our Vendor Standards Manual, where we encourage placement of the Julian date code and factory code on each package surface (master, inner, and each) to enable determination of the day, year and location of production. If the "each" does not have a package, the date and factory codes should be placed on the product. Children's products will need permanent distinguishing marks on the product, to the extent practicable, to identify the item#, manufacturer, and location and date of production, for all goods manufactured on or after 8/14/09 as follows: "www.amscan.com - vendor#_item#_year_country of origin"

For Additional Information or questions, please contact: Ray Cheung (Amscan Hong Kong): rcheung@amscan.asia/Kevin Lauturner (Amscan US/Party City/Halloween City): kelautur@amscan.com
